MATTEO: \$160 PER HOUR
OR
DION: \$140 PER HOUR

WHY CONSIDER UPGRADING?

While our PA system is excellent, the Column Speakers offer more precise, and consistent sound distribution, minimising sound distortion (important for speeches)

As well, they have integrated, powerful subwoofers which deliver a deeper/more defined “bass feel” throughout the entire venue.

The bass delivers that “pumping” party vibe that you guests didn’t know they needed, which enhances the energy on the dance floor without overwhelming the room.

WHAT ELSE IS INCLUDED?

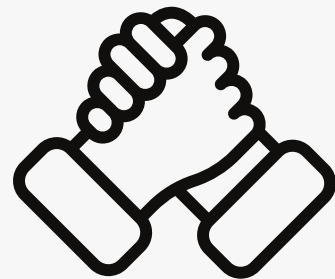

Music Selection, Preparation of Personalised Playlists

MUSIC PICKED BY YOU

HERE TO HELP RIGHT UP UNTIL YOUR EVENT

EVENT SPECIALISTS WITH 400+ SUCCESSFUL EVENTS

- Music is our top priority, and we aim to customise the music selection to ensure that your favourite songs and artists are playing throughout the whole night.
- We ask our clients to compile one main playlist (either through Spotify or a general list) including:
 - some Chill music for earlier in the evening before speeches (chill R&B/hip hop, alternative/indie, soft rock, chill house or pop, etc). Think of your favourite car ride or home playlist!
 - your Main Party music with your favourite dance anthems (songs that you, your friends, and family love to sing and dance to) for later in the evening.
- You can share as much or as little as you'd like with us. We'll take your playlists as a starting point and then take the time prior to blend them with our music collection in our own time to create a personalised playlist that suits your vibe.
- OR we can just read the room and go with the flow – it's all up to you!
- Stuck with the Music Selection? Don't stress! We have a range of our exclusive party playlists across many genres that we know work & are accessible for you to look at before making any decisions on music. Use this to your advantage, as you'll be able to skim our playlists and see if you missed anything you like!
- We understand planning a party can be stressful, so we would love to help out & provide support where we can to relieve some of this pressure & we would never charge any thing more for it.
